

Layers of Project

MACL

- 1- **RCC** (1-week)
- 2- **GPIO** (1-week)
- 3- **ADC** (1-week)
- 4- **Sys** (1-week)
- 5- **NVIC** (1-week)

HAL

- 1- **LCD** (1-week)
- 2- **TFT** (1-week)
- 3- **LED Matrix** (1-week)

Com.protocol

- 1- **SPI** (2-week)
- 2- **CAN** (2-week)

Eng. Mohamed Kamal -----> Sys + NVIC + TFT +LED Matrix +CAN

Eng. Mohamed Ramzi -----> RCC + GPIO + ADC + LCD + SPI

week 1

RCC + Sys

week 2

GPIO + NVIC

week 3

ADC + LED Matrix

week 4

LCD + TFT

week 5,6

SPI + CAN

- Every week 2 drivers will be done ISA except Week of Com.Protocol . It will expand to 2 weeks .
- After writing these drivers , we will be able to write the App of our project .
- We have a meeting every Thursday at 10 pm to recap and revise our drivers .
- Every Friday I will write in this group about the latest updates that we did .
